

Everyone says The Highlands is 'full of creatives'...

LET'S PROVE IT!

The creative industries is a vast resource that is largely invisible at the local level.

There is untapped potential to generate production and connection between us, and reveal the strength of the sector to national and global markets.

No matter what your discipline – visual, performance, writing, technical, administration; or level of proficiency – 'amateur' to professional, emerging to established... **we need to hear from you.**

A survey has been developed as a means to collect basic information from individuals, galleries, venues, organisations etc. Who are you? What do you do? What can you offer? What do you need?

Take 10 minutes to complete it yourself; and share this message with your creative networks, colleagues and friends.

You can do the survey on your phone...
