

Treading Water, an exhibition by Bill Dorman

Friday 1 May – 12 June at Connect@Gunning

Every Friday 10am - 3pm

Treading Water - Evolutionary hybrids of boats with legs become refuges for fungi figures. Climate change, migration and the insidious disconnect from the natural world are expressed through these characterful sculptures, that question the effect of current human attitudes on far-reaching evolution. The exhibition includes a number of striking bangles that have evolved to become sculptural forms.

Parcels Gallery

1. *All at Sea*

Steel, brass,
copper
1200 x 500 x 300
\$12800.00
